Introduction to Photovoltaic System Design & Construction Workshop

includes NABCEP PV Associate Certification

This week long workshop will introduce participants to the fundamentals of solar energy, types of solar energy systems, system sizing principles, and the electrical and mechanical design of photovoltaic arrays.

The course will focus on the key competencies addressed in the North American Board of Certified Energy Practitioners (NABCEP) PV Associate exam and includes the exam. Upon passing, you will receive the NABCEP Photovoltaic Associate Certification.

May 13-17, 2019

Early Registration Cost: $1,150 *
