

SUSTAINABLE ENERGY SPEAKER SERIES

Ryan Miller,

Founder and Executive Director of North Carolina Building Performance Association (NCBPA)

Building Energy Efficiency: The Foundation of North Carolina's Clean Energy Future

Monday, September 23 | 4:00-5:00pm
PSU Room 201A Price Lake Room

Ryan is the Founder and Executive Director of NCBPA, the state's not-for-profit trade association representing building performance companies and professionals. Learn how North Carolina can meet its clean energy, renewable energy and carbon emission goals by implementing an #EnergyEfficiencyFirst strategy, the largest, least-cost and most impactful sector of our state's clean energy economy. This sector, which employs more than 55% of the clean energy workforce and contributes nearly 4% to the state's annual gross domestic product, is often overlooked and sometimes ignored entirely.

The NEW Reduce, Reuse & Recycle

*Reduce Energy Usage in Buildings
FIRST!*

Reuse Energy Provided by Renewables

Recycle Energy in Buildings & Vehicles
